ANDERSON, J. M. and J. CLUNIE: Picard sets of entire and meromorphic functions .....	27—43
ASTALA, KARI and KLAUS VALA: On the measurability of vector valued functions .....	121—124
AULASKARI, RAUNO: On $F_0$ -normality and additive automorphic functions of the first kind .....	327—339
AZZAM, A. und E. KREYSZIG: Über das gemischte Randwertproblem für elliptische Gleichungen in $n$ -dimensionalen Gebieten mit Kanten .....	341—346
BAKER, I. N.: Entire functions with two linearly distributed values .....	381—386
GAULD, DAVID: Lipschitz and quasiconformal tubular neighbourhoods of spheres in codimension two .....	175—178
GRANLUND, SEPPO: Harnack's inequality in the borderline case .....	159—163
GYÖRY, K.: Explicit upper bounds for the solutions of some diophantine equations .....	3—12
HAG, KARI and MARJATTA NÄÄTÄNEN: On the outer coefficient of quasiconformality of a cylindrical map of a convex dihedral wedge .....	125—130
JÄRVI, PENTTI: Meromorphic functions on certain Riemann surfaces with small boundary .....	301—315
JÄRVI, PENTTI: On certain algebras of analytic functions on Riemann surfaces .....	317—326
KEEN, LINDA: On hyperelliptic Schottky groups .....	165—174
KORTRAM, R. A. and O. TAMMI: Non-homogeneous combinations of coefficients of univalent functions .....	131—144
KUSUNOKI, YUKIO and MASAHIKO TANIGUCHI: A continuity property of holomorphic differentials under quasiconformal deformations .....	207—226
LEHTINEN, MATTI: On the inner radius of univalence for non-circular domains .....	45—47
LUUKKAINEN, JOUNI: A note on Lipschitz compactifications .....	377—379
MARTIO, O.: Definitions for uniform domains .....	197—205
NEITTAANMÄKI, PEKKA: Dirichletsche und Neumannsche Randwertaufgaben in der statischen Elastizitätstheorie .....	227—236
NIEMI, HENRY: On the construction of the irreducible representations of the hyperalgebra of a universal Chevalley group .....	17—25
POREDA, S. J., A. K. KABLY and J. W. WARD: Multipliers of Hankel matrices .....	347—354
PURMONEN, VEIKKO T.: On parametrically quasi-elliptic boundary problems .....	237—262
RAMACHANDRA, K.: Some remarks on the mean value of the Riemann zetafunction and other Dirichlet series. III .....	145—158
RICKMAN, SEPPO: Asymptotic values and angular limits of quasiregular mappings of a ball .....	185—196
SORJONEN, PEKKA: Extensions of isometric and symmetric linear relations in a Krein space .....	355—375
TOPPILA, SAKARI: On exceptional values of functions meromorphic outside a linear set .....	115—119
TOPPILA, SAKARI: On the length of asymptotic paths of entire functions of order zero .....	13—15
TOPPILA, SAKARI: On the value distribution of meromorphic functions with a deficient value .....	179—184
TOPPILA, SAKARI: Picard sets for meromorphic functions with a deficient value .....	263—300
TUKIA, PEKKA: On two-dimensional quasiconformal groups .....	73—78
TUKIA, PEKKA: The planar Schönflies theorem for Lipschitz maps .....	49—72
TUKIA, P. and J. VÄISÄLÄ: Quasisymmetric embeddings of metric spaces .....	97—114
VUORINEN, MATTI: On the boundary behavior of locally $K$ -quasiconformal mappings in space .....	79—95
